1.0HP Multi-Speed Swimming Pool Pumps

Key Product Features & Benefits

The Baracuda Supra ECO pool pumps feature a 1.0HP simple-to-operate energy-saving smart motor that saves you money on electricity and are available in 3-Speed and Variable Speed models. They are energy efficient providing uncompromising power to filter and recirculate pool water while keeping costs down.

The ECO 3 consists of 3 preset speeds such as 2850 RPM for start-up & boost, 2200 RPM for suction pool cleaners and 1400 RPM for standard filtration.

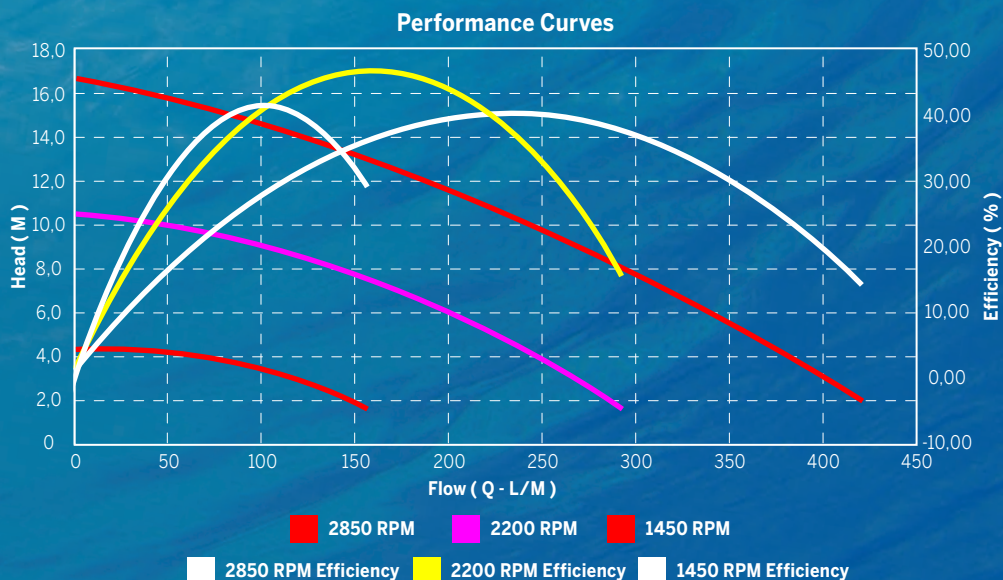

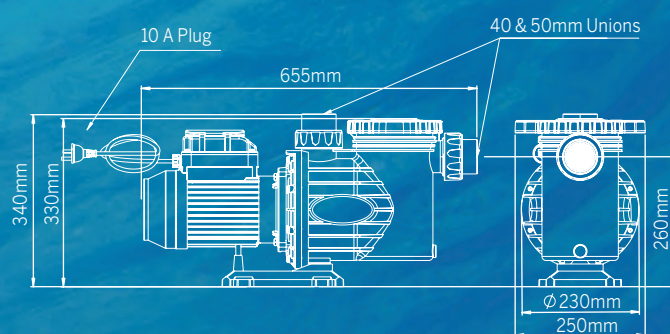

The ECO VS Variable Speed Pump can store different speed options over a range from 600 RPM to 2850 RPM.

This allows you the choice to select different speeds for each pool function such as, heating, cleaning and filtration backwash.

Packaging Content

- ✓ 1x Baracuda® Pump
- ✓ 1x User Manual
- ✓ 1x Warranty Card
